Graphic Design (Faculty: Communication Design)

Q.No	Question
1	Identify any 3 problems related to **"Climate Change"** in urban areas of India. Suggest practical solutions for the 3 problems. Present your solution as a Poster with Colors. **Required Material:** • Chart Paper or Poster Board (A3 or A2 size) • Markers and Sketch Pens • Color Pencils or Crayons • Watercolors or Acrylic Paints
2	Develop a monochrome branding concept for a newly launched **"EV Scooter"** including a logo, a tagline and a digital banner ad.
3	**Watch the video** and answer the questions:  - What is the central design element that has remained consistent through evolution? - How has the design evolved to accommodate modern needs such as accessibility and user experience? Imagine and **design the next logo** evolution for Google. Present in color. Add notes to explain.
