Toy & Game Design (Faculty: Industrial Design)

Q.No	Question
1	A child has received a set of marbles of different colors. The child is not sure how to play with it. **Invent a game** which the child can play and enjoy. Write rules of the game and create an instruction sketch book for children to understand. **Material Required:** ● Pencils, Pens, and Markers ● Drawing Paper or Sketchbook
2	Visualize a set of **"Jenga" blocks**. Now invent a new game which can be played with them but is different from regular Jenga. Present your idea using sketches and notes. Write a list of rules for your new game. **Material Required:** ● Pencils, Pens, and Markers ● Drawing Paper or Sketchbook
3	Choose a **traditional Indian toy** (e.g., spinning top, Channapatna toy, or wooden puppet). Modify it to enhance its appeal for modern children (ages 5-10). Sketch the redesigned toy and explain the changes in 100 words.
